

SBM Offshore Quality Policy

4th June 2013

SBM Offshore commits to:

- Be a trusted partner in the sustainable development of complete floating production solutions for the world's energy companies.
- Provide innovative and quality solutions.
- Pursue excellence in everything we do.

In conducting its business activities, SBM Offshore continually strives to:

- 1) Enforce a zero tolerance for poor quality products or services to external and internal clients.
- 2) Improve our performance and anticipate our clients' requirements so producing results that we can justifiably be proud of.

3) Implement a Group Management System that complies with the best international standards in reference with the BS EN ISO 9001 and ensure it remains effective all along our product lifecycle.

4) Closely monitor the performance of our Group Management System and our quality objectives to ensure continuous improvement.

5) Communicate this Quality Policy throughout the entire organisation and regularly review this document for its continued suitability.

6) Ensure all personnel within the Group understand that they are responsible for the quality of their work, and provide training and systems necessary to assist all personnel to achieve the standards that we aspire to.

This policy was reviewed and endorsed by the Board of Management, June 2013.
